

5. PREMIUMS AND CLAIMS

DEFINITIONS

2023-P&C

All amounts reported must be in thousands of dollars.

The information to be reported in this tab excludes commercial insurance products and reinsurance.

References to the Quarterly Return / Annual Supplement: To specify the nature of the requested data, you will find below references to the Quarterly Return. However, note that the data to be provided in this form are not exactly the same as the Quarterly Return. The requested information in this table is non-consolidated, limited to individual policies and must be provided by distribution channel. The amount of the automatic calculation in columns (19) and (89) for each class of insurance should be similar to the amount reported in the Quarterly Return / Annual Supplement for these same class of insurance without exceeding it. If the amount reported for a class of insurance is higher, provide details in general comments.

For the Direct Premium Written, the Claims incurred and Internet New Direct Premiums, accident and sickness* class of insurance is an automated calculation totalling all the sub-classes of insurance under it. For the Number of New Policies Sold by Internet column (01), as for the policies tab, indicate on line 210 the total number of policies and for the accident and sickness sub-class of insurance on lines 211 to 217 the number of coverages. The number of coverages does not necessarily equal the number of policies.

A product is considered to be sold by Internet/online if the entire sale process is done online without using the services of an agent or broker. If you or your distributions channels (Independent Channels and Direct or Exclusive Channels) sell your products through the Internet, you must answer "yes" to question 150, column (01). We do not consider it sale by internet if a sale is completed by a licensed agent after the consumer obtains information or price from a website.
